Parul Gupta – Founder- Potentials Therapy Center, ASD Specialist.

Qualifications – MA Psychology, – Delhi University

MA Child & Adolescent – Kings College London

She has been working intensively with children of neuro-developmental disorders including Autism Spectrum Disorders since the last 14 years. Shortly into this field, ideas for a different way of working made her kick -start her current venture, Potentials in 2010.

Over the last 8 years, she has formulated and refined her own model of Social Communication therapy, Eye – to I, one of the first Indian models for kids with neuro-development disorders. She has written and presented papers and lectures on various aspects of this therapy in conferences, besides conducting training workshops for professionals and parents and coordinates with schools. She has been a guest faculty on the subject for institutes such as National Institute of Public Cooperation and Child Development (NIPCCD), Institute of Home Economics, Action for Autism, National Institute of Mental Health (Delhi Chapter) to name a

few. Her dream is to reach out to all corners of India and abroad and train the new breed of clinical psychologist in her model to help the children.
